Instructions:

1. This question paper contains a total of **1** page (**1** side of paper).
2. Write your name, roll number, department, and section on every side of every sheet of this booklet
3. Write final answers neatly with a blue/black pen in the given boxes.
4. **Answers written outside the box will NOT be graded.**

Total **10 Marks**

Q. 1: Write the output of the following program in the appropriate box. **4 Marks**

```
#include <stdio.h>
int main(){
    int x,sum_odd=0, sum_even=0;
    for(x=1; x<=10; x++){
        if(x%2) sum_odd += x;
        else sum_even += x;
    }
    printf("%d\n", sum_odd);
    printf("%d\n", sum_even);
    return 0;
}
```

Output Line No.	Output
1	25
2	30

Q. 2: Write the output of the following program in the appropriate box. **6 Marks**

```
#include <stdio.h>
int main(){
    int x=0, sum=0;
    while(x<6){
        switch(++x){
            case 1: sum += 1;
            case 2: sum += 2;
            case 3: sum += 3;
            case 4: sum += 4;
            case 5: sum += 5;
            default: break;
        }
        printf("%d\n", sum);
    }
    return 0;
}
```

Output Line No.	Output
1	0
2	1
3	3
4	6
5	10
6	15
